Technical Skills

Languages

- Python, C, Java
- JavaScript, HTML, CSS

Frameworks & Libraries

- React
- Express.js, Flask

Tools

- SQL, Node, MongoDB
- Git, Docker, Rest APIs

Development Skills

- Agile Development, Unit Testing
- Object-Oriented Programming

Technical Projects

QuickStyle (1st Place Overall – HackTheBreak)

March 2026

- Collaborated in a team of four to build a development tool that helps quickly style React components using Tailwind CSS
- Developed the backend logic for file system management and backend endpoint communication
- Won first place overall among over 100 participants
- Technologies: React, JavaScript, Tailwind CSS

Hockey-Insight (Personal Project)

Jan 2026

- Developed a full-stack predictive analytics platform to analyze NHL player performance and game outcomes using historical statistics
- Implemented Machine Learning models to forecast results
- Created a frontend dashboard to view data and results
- Technologies: Python, React, JavaScript, Flask

Natural Language-to-SQL AI Agent (BCIT ISSP)

May 2025

- Worked with an external client to create an AI agent
- Improved the agent's performance by training it on domain-specific database schemas, reducing manual query time for non-technical users
- Technologies: Dify, Python

Chat Application (Academic Project)

Jan 2025

- Led one of the client-side development teams in a high-concurrency messaging project for a Data Communications course
- Implemented a robust GUI using Ncurses and handled low-level socket communication to ensure reliable data transmission
- Managed cross-team communication to ensure that there was alignment with server-side and protocol teams
- Technologies: C, Ncurses

Clinic Management & Imaging Tool (BCIT ISSP)

Jan 2025

- Worked in a team of four using the Agile development process
- Developed a scheduling volume system and a mouth X-ray diagnostic reader
- Led client meetings where requirements were gathered and prioritized
- Technologies: Python, JavaScript, HTML, PostgreSQL

Work Experience

Carpenter | Skytec Contracting

Jun - Aug 2025

Jan - Sep 2023

- Frequently oriented and trained new hires in necessary safety protocols and day-to-day construction skills
- Thrived in high-pressure situations while maintaining attention to detail
- Demonstrated a high degree of adaptability, successfully integrating into diverse crews

Owner | Reload Auto Detail

2020 - 2023

- Created a viable, registered business with annual revenues of \$100,000
- Promoted the company through Google Ads and referral networks
- Sold the business to a business partner in 2023

Education

British Columbia Institute of Technology

Bachelor of Applied Computer Science

Network Security Applications Development Option

Sep 2025 - Current

Computer Systems Technology Diploma

Data Communications and Networking Option

Completed 2025
